

## Products & Services

### ⌘ Semiconductor Process:

- GaAs wafer process (2-6")
- InP wafer process (2-4")
- Ge wafer process (2-4")
- Sapphire LED wafer process (2-4")

### ⌘ Semiconductor Process Consumables:

- GaAs wafer polish slurry
- InP wafer polish slurry
- Ge wafer polish slurry
- Colloidal silica (20,30,50-70 um)
- Acid colloidal silica
- Suspension plus SS-C22SN
- Pad cleaning plus AOS-336
- SiC cleaning AOS-404
- Sapphire cleaning AOS-603
- Diamond lapping powder
- Aluminum oxide lapping powder
- Silicon carbide lapping powder
- PU rough polishing pad
- PU final polishing pad
- Carrier (stainless steel, fiberglass epoxy)
- Template
- Beeswax for temporary mounting of optics, semiconductors & ceramics
- Lap-less diamond band saw for slicing silicon, glass, granite rock & marble

### ⌘ Optical glass & device process consumables

- Cerium oxide powder
- Optical cold-working glue
  - \* Polish glue (pitch & colophony)
  - \* Sphere adhesive
  - \* Plane adhesive
  - \* Edge polish glue
- Cold-working glass protective coating (mould proof agent)

- \* Acrylic acid style
- \* Shellac varnish style
- Optical instrument mould proof agent
- Lubricating grease for optical instrument
  - \* Lithium grease
  - \* Hydroxyl grease
  - \* Ocular grease
  - \* Dust-proof grease
  - \* Slide bearing oil for precision instrument
  - \* Anti-rust grease for accessories of metric instrument
- Dulling agent for optical lens edge stray light
- Protective coating for precise cutting of optical spare parts
- Polarizing filter
  - \* H style
  - \* IR style
  - \* 1/4 wave style
- Optical resin adhesive (fir glue)
- Polishing pitch
- Long fiber absorbent cotton
- Special grade colophony
- Shellac
- Roll
  - \* Diamond roll
  - \* Resin roll
  - \* PUS roll (polyurethane rubber roll), instead of 10S, BK, 9R polish roll
  - \* AD roll, instead of BD, BK roll
  - \* Felt roll
  - \* PU polish roll (contain 30% polishing powder)
  - \* Polishing pad

### ⌘ Chemical products: fine chemicals

- Lithium cryolite (Cryolithionite) CAS No. 13821-20-0
- Sebacic acid
- Stearic acid

- Glycerine
- 2-Octanol
- Dimethyl sebacate
- Glyceryl triacetate
- Tetramethylammonium hydroxide (10%)

#### ⊗ Chemical products: Amino acid

- L-Proline
- D-Proline
- L-Glutamic acid
- L-Glutamic acid HCl
- L-Aspartic acid
- DL-Aspartic acid
- L-Alanine
- D-Glutamine

#### ⊗ Polymer products

- Industrial stretch films
- Air bubble double layer films
- PE stretch film for food packing
- PE tubing
- PVC tubing
- PU tubing
- Silicone rubber tubing

#### ⊗ Filters

- Folding micromembrane filter
- Polyfone® cartridge
- Polyflo cartridge
- Nylapure® cartridge

#### ⊗ Pharmaceutical intermediates

- Phenylhydrazine-4-sulfonic acid
- 4-Methoxyphenyl hydrazine hydrochloride
- 4-Nitrophenyl hydrazine hydrochloride
- 4-Bromo phenyl hydrazine hydrochloride

- 4-Sulfonamide-phenylhydrazine hydrochloride
- 4-Fluor phenyl hydrazine hydrochloride
- 2-Methoxyphenyl hydrazine hydrochloride
- 2-Nitrophenyl hydrazine hydrochloride
- O-Fluor phenyl hydrazine hydrochloride
- P-Methyl phenyl hydrazine hydrochloride
- O-Chlorophenyl hydrazine hydrochloride
- 3-Nitrophenyl hydrazine hydrochloride
- Iso-chlorophenyl hydrazine hydrochloride
- 1-Amino-2-naphthol
- 2,4,5-Trichlorophenyl sulfonic acid
- P-Chloro-methylbenzyl-ketone
- Ethylbenzylaniline sulfonic acid
- 3-Aminonaphthalene-8-hydroxy-4,6-disulfonic acid
- Naphthalene-1,5-dissulfonic acid sodium
- Wool whitener WG
- 2-Aminonaphthalene-5,7-disulfonic acid
- Naphthalene-2,7-disulfonic acid
- Naphthalene-2,6-disulfonic acid
- Naphthalene-1,3,5-trisulfonic acid
